”

"From our point of view, Industry 4.0 only delivers the full promised added value when thinking in terms of cross-manufacturer interoperable

product ecosystems. The customer thus has the opportunity to combine the right solution for him from the various offerings. The Open Industry 4.0 Alliance fully embodies this approach and we want to actively shape this path towards an interoperable ecosystem.“

Action items for all members

For any questions or comments,
please contact our service office:

Recruit new members- we are
happy to help and an information
package can be requested from the
Service Bureau.

Internal selling & showcases:
Members should raise their hands, if
they have showable points, where
the Alliance already works (e.g. for
Marketing of the Alliance)

Energy: Please lean in, we need it!

Register and use the new member
space actively to keep yourself and

your stakeholders & colleagues
about the developments in the
Alliance up-to-date

Get in touch

**Thank you for your valued
contribution.**

We are looking forward to your
continued collaboration in 2020!

**Have you missed one of our last
Newsletters?** Please find all
