Project Partnership Application

We hereby declare for project partnership in the association Open Industry 4.0 Alliance. By signing below, we recognise the bylaws (statutes) of the Open Industry 4.0 Alliance. Operators of production facilities ("Operators") may, upon request of an Association workgroup or an Ordinary Member, be included as partners for a limited period of time, up to a maximum duration of one year (12 months) related to a specific project. After that, the partnership ends automatically. An extension of the project duration must be made in writing and be confirmed by the Board. The Board decides on the acceptance and the modalities of the partnership. Project partners are not considered members of the Association and don't have the right to vote. If payment is made by direct debit, the contribution will be debited from the above-mentioned account in accordance with the valid SEPA procedure (creditor identification number: CH_____). The Open Industry 4.0 Alliance must be notified in writing of any changes to personal data, in particular address and account details. We acknowledge the legal framework policies of the association Open Industry 4.0 Alliance (to be found on the Alliance website) and understand and accept all rights and obligations arising from it. Further, we actively and sustainably support the purpose of the association. As a project partner we want to actively participate in the association's specific project and contribute to the further development of the association. Moreover, by becoming a project partner we agree that our company's logo may be used within logo compilations (collection of logos) in the association's external communication with the sole purpose of displaying project partnership only.

Data protection

Your data collected above will be processed by Open Industry 4.0 Alliance and, if applicable, by Open Industry 4.0 Alliance Implementation GmbH in a computerised membership and contribution file for internal club purposes in compliance with the privacy. Further information on the handling of your personal data can be found on our website: <https://openindustry4.com/privacy/>.
